Cloud-Computing Intern

Uni Converge Technologies Pvt Ltd

04/2024 07/2024 Greater Noida, India

I learned about cloud computing throughout my internship and developed my abilities in platform usage, infrastructure management, application deployment, automation, scripting, and problem-solving.

MERN Developer

Edunet Foundation

08/2024 10/2024 Greater Noida, India

I learned HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Mongoose, API integration, and testing to create and manage web pages, user interfaces, server-side programming, database management, and integration. I used the React library for user interfaces, Node.js for server-side programming, and Express.js for RESTful APIs. I used MongoDB and Mongoose for data storage and retrieval, and tested applications for efficiency and correctness.

Full Stack Developer

Indian Institute of Technology Kanpur

11/2022 02/2023 Greater Noida

IIT Kanpur Academics offers a liberal arts undergraduate curriculum in science, technology, engineering, management, and humanities, fostering critical thinking and problem-solving skills, offering online options and research-focused programs.

EDUCATION

Bachelor of Technology Engineering

Mangalmay Institute of Engineering and Technology Greater Noida, India

08

/2022 Present Aspect CGPA: 7/10

Diploma Electronics and Communications Engineering

J.K.P Polytechnic College Sonipat, India

08

/2017

08/2019 CGPA: 7/10

High School Diploma

N.K.S. Higher Secondary Bettiah, India

08/2012 08/2015 CGPA: 7/10

CERTIFICATIONS

- ❖ **Software Development – LinkedIn & Microsoft** ❖ **GitHub & Git – LinkedIn & GitHub** ❖ **Project Management – Google**
- ❖ **Full-Stack developer – IIT Kanpur**
- ❖ **AI-ML developer – Amazon Web Service** ❖ **Android Developer – Google for Developers**
- ❖ **Web Development Fundamentals- IBM**
- ❖ **IR 4.0 Foundation Course – Edunet Foundation & Microsoft**

SUMMARY

I'm a driven individual with excellent programming skills in React Js, Java, and JavaScript, with experience in web development projects like the Hospital Management System App and online code compiler, and strong communication and problem-solving abilities. My goal is to produce cutting-edge Web development and fullStack development solutions that surpass client expectations and improve the digital landscape by utilizing my abilities and creativity. My commitment to lifelong learning and development stems from my constant search for fresh challenges and chances to broaden my perspectives.

ACHIEVEMENTS

I achieved basic DSA certificate from Hacker Rank.

Achieved 31st rank in the Java Quiz organized by Datapro Computers Pvt Ltd.

I enthusiastically participated in the Robotic, Coding Quiz organized by Robotic IO Pvt Ltd.

I enthusiastically participated in the "NASPC" (National Students Paryavaran Competition).

Excellent performance in "Spring Into Action – A College Quiz Series" by GoSpring.ai.
